Independent Auditors' Report

The Board of Trustees
College of the Holy Cross:

We have audited the accompanying financial statements of the College of the Holy Cross, which comprise the balance sheets as of June 30, 2013 and 2012, the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the College of the Holy Cross as of June 30, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

(1) Background

College of the Holy Cross (the College or Holy Cross) is a not-for-profit educational institution committed to the principle of educating men and women for others. As a Jesuit college, Holy Cross takes its place in a 450-year tradition of Catholic education that has distinguished itself for intellectual rigor, high academic standards, and religious and moral sensitivity. Top-ranked nationally, Holy Cross is a coeducational liberal arts college with a community of approximately 2,900 students, situated on a 174-acre campus. Holy Cross was founded in 1843 by the second bishop of Boston, Benedict Joseph Fenwick, S. J., making it the oldest Catholic college in New England.

(2) Summary of Significant Accounting Policies

(a) *Basis of Statement Presentation*

The accompanying financial statements, which are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles, have been prepared to focus on the College as a whole and to present balances and transactions according to the existence or absence of donor-imposed restrictions.

(b) *Classification of Net Assets*

Unrestricted net assets – Net assets not subject to donor-imposed stipulations and available for the general operations of the College. Such net assets may be designated by the Board of Trustees for specific purposes, including to function as endowment funds.

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations as to the timing of their availability or use for a particular purpose. Investment returns on donor-restricted endowment funds are classified as changes in temporarily restricted net assets and are generally available for appropriation to support operational needs subject to the College's endowment spending policy and any restrictions on use imposed by donors.

Permanently restricted net assets – Net assets subject to donor-imposed stipulations requiring they be maintained in perpetuity by the College. The College classifies the following portions of donor-restricted endowment funds as permanently restricted net assets: (a) the original value of assets contributed to permanent endowment funds, (b) subsequent contributions to such funds valued at the date of contribution, and (c) reinvested earnings on permanent endowment when specified by the donor.

(c) *Statements of Activities*

The statements of activities report the change in net assets from operating and nonoperating activities. Operating revenues consist of those items attributable to the College's undergraduate education program, grants for research conducted by the academic departments, auxiliary enterprise activities and contributions to the annual fund. Nonoperating net assets used in operations includes endowment income appropriated by the College to support operating activities and nonoperating contributions expended in support of operations or made available for operations by virtue of the expiration of a time restriction.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

Nonoperating activities includes investment return on short and long-term investments, contributions received other than for the annual fund, grant income to fund capital acquisitions, any gains or losses on debt-related derivative instruments, pension adjustments other than net periodic benefit cost and miscellaneous items not related to the College's academic or research activities. To the extent nonoperating contributions, investment income and gains are used for operations, they are reclassified as "nonoperating net assets used in operations" on the statements of activities.

Revenues are reported as increases in unrestricted net assets unless their use is limited by donor-imposed restrictions as follows:

- Student fees are recorded at established rates, net of financial aid and scholarships provided directly to students.
- Contributions, including unconditional promises to give reported as contributions receivable, are recognized as revenues in the period received. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at the appropriate rate commensurate with the risks involved. Amortization of the discount is recorded as additional contribution revenue in accordance with the donor-imposed restrictions, if any, on the contributions. Expirations of temporary restrictions on net assets, that is, the donor-imposed stipulated purpose has been accomplished and/or the stipulated time period has elapsed, are reported as net assets released from restrictions on the statement of activities. Conditional promises to give are not recognized until they become unconditional, that is when the conditions on which they depend are substantially met.
- Contributions of land, buildings, or equipment are reported as unrestricted nonoperating support unless the donor places restrictions on their use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as increases in temporarily restricted net assets until the assets are acquired and placed into service.
- Auxiliary enterprises include a variety of services that enhance the quality of student life on campus. Revenues are displayed in two sections. Fees for housing and dining services are displayed along with tuition and fees net of scholarship aid to arrive at net student fee revenue. Other auxiliary service enterprise revenues, which include college retail operations, cash dining, catering, intercollegiate athletics and graphic arts, are displayed separately. Expenses associated with auxiliary enterprise activities are reported as a single total and include an allocated portion of the cost of operating and maintaining College plant assets, interest and depreciation expense.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

- Dividends, interest, and net gains on investments of endowments are reported as increases in permanently restricted net assets if the terms of the gift require that they be added to the principal of a permanent endowment fund; as increases in temporarily restricted net assets if the terms of the gift imposes restrictions on the current use of the income or net gains; and as increases in unrestricted net assets in all other cases.

Expenses are reported as decreases in unrestricted net assets. Expenses associated with the operation and maintenance of the College's plant assets, including interest and depreciation expense are allocated on the basis of square footage utilized by the functional categories. Expenses associated with fundraising activities of the College were \$6,937 and \$6,850 in 2013 and 2012, respectively, and are included in institutional support in the statements of activities.

(d) Cash Equivalents

For the purpose of the statements of cash flows, the College considers cash equivalents as investments with maturities at date of purchase of three months or less, except that any such investments purchased by external investment managers are classified as long-term investments.

(e) Fair Value Measurements

Short-term and long-term investments and the interest rate swap are reported at their respective fair values. Fair value represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. The College uses a three-tiered hierarchy to categorize those assets and liabilities based on the valuation methodologies employed. In addition, classification of certain alternative investments within the fair value hierarchy is based on the College's ability to timely redeem its interest rather than the valuation inputs. The hierarchy is defined as follows:

Level 1 – Valuation based on quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities;

Level 2 – Valuations based on inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, as well as those alternative investments that are redeemable on or near the measurement date; and

Level 3 – Valuations based on unobservable inputs are used in situations in which little or no market data is available, as well as those alternative investments that are not redeemable near the measurement date.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. The College utilizes valuation techniques that maximizes the use of observable inputs and minimizes the use of unobservable inputs to the extent possible. Transfers between categories occur when there is an event that changes the inputs used to measure the fair value of an asset or liability. Transfers between fair value categories are recognized at the end of the reporting period.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

(f) *Accounts and Loans Receivable*

Accounts and loans receivable include amounts primarily due from students, employees and reimbursements due from sponsors of externally funded research.

(g) *Land, Buildings, and Equipment*

Constructed and purchased property and equipment are carried at cost or at estimated fair value if acquired by gift, less accumulated depreciation. Expenditures for library books are charged to operations in the period acquired. Long-lived fixed assets, with the exception of land and artwork, are depreciated using the straight-line method over the assets' estimated useful lives.

(h) *Other Assets*

Other assets consist of prepaid expenses, inventories, and investments held in a nonqualified deferred compensation plan.

(i) *Refundable Advances*

The College holds certain amounts advanced by the U.S. government under the Federal Perkins Loan Program (the Program). Such amounts may be re-loaned by the College after collection; however, in the event that the College no longer participates in the Program, the amounts are generally refunded to the U.S. Government.

(j) *Split-Interest Obligations*

The College's split-interest obligations consist principally of charitable gift annuities and irrevocable charitable remainder trusts for which the College serves as trustee. Contribution revenue is recognized at the date a gift annuity or trust is established after recording a liability at fair value of the estimated future payments to be made to the beneficiaries. Liabilities are adjusted during the terms of the agreements to reflect payments to beneficiaries, returns on trust assets, accretion of discounts and other considerations that affect the estimates of future payments.

(k) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. A difficult economic environment increases the uncertainty of those estimates.

(l) *Tax Status*

The College is a tax-exempt organization as described in Section 501(c)(3) of the Internal Revenue Code and is generally exempt from federal and state income taxes under Section 501(a) of the Code and applicable state laws. The College believes it has taken no significant uncertain tax positions.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

(3) Contributions Receivable

Contributions receivable consist of the following at June 30:

	<u>2013</u>	<u>2012</u>
Unconditional promises expected to be collected in:		
Less than one year	\$ 6,556	4,850
One to five years	6,189	9,936
Thereafter	1,000	1,000
Less allowances for uncollectible pledges and pledge discounts (0.15% - 2.5%)	<u>(1,395)</u>	<u>(2,618)</u>
	<u>\$ 12,350</u>	<u>13,168</u>

(4) Investments

Strategy

The investment objective of the College is to invest its assets in a prudent manner to achieve a long-term rate of return sufficient to fund a portion of its spending and to increase investment value after inflation. The College's investment strategy incorporates a diversified asset allocation approach that maintains, within defined limits, exposure to global equity, fixed income, real estate, commodities, and private equity markets. Hedge funds invest in a broad range of investments that are less correlated with broad equities markets. This includes credit-oriented strategies, multi-strategy funds where the manager has a broad mandate to invest opportunistically, and event driven funds where managers seek opportunity in various forms of arbitrage strategies as well as in corporate activities such as mergers and acquisitions. Hedge funds may employ the use of leverage and derivatives to achieve their return. Private equity strategies include buyout and venture capital as well as distressed investments which includes entities involved in financial reorganizations or workout situations. The real asset classification includes investments in public and private real estate, energy, and commodities.

The majority of the College's investments are managed in a pooled fund that consists primarily of endowment assets. Other investments are managed separately from the pool. These investments consist primarily of fixed-income securities, principally government securities and money market funds held for the College's working capital needs, and various fixed income, equity and real asset holdings associated with split-interest agreements and short-term investments.

Reporting Basis

Investments are reported at estimated fair value. The values of publicly traded fixed income and equity securities are based upon quoted market prices at the close of business on the last day of the fiscal year. Investments in units of non-publicly traded pooled funds are valued at the unit value determined by the fund's administrator based on quoted market values of the underlying securities. Alternative investments which consist of hedge funds, private equities and real assets strategies are valued using current estimates of fair value based upon the net asset value (NAV) of the funds determined by the general partner or investment manager for the respective funds. These valuations consider variables such as financial

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

performance of investments, including comparison of comparable companies' earnings multiples, cash flow analysis, recent sales prices of investments, and other pertinent information. NAV is used as a practical expedient to estimate the fair value of the College's interest in these funds, unless it is probable that all or a portion of the investment will be sold for an amount different than NAV. The College has assessed the NAV provided by the external managers and believes the amounts reported represent a reasonable estimate of fair value.

The investments classified as Level 2 and 3 have been valued using NAV as the practical expedient and consist of shares or units in nonregistered investment funds as opposed to direct interests in the funds' underlying securities, which may be readily marketable or not difficult to value. Because of the use of NAV as a practical expedient to estimate fair value, the level in the fair value hierarchy in which each fund's fair value measurement is classified is based primarily on the College's ability to redeem its interest in the fund at or near the date of the balance sheet. If the interest can be redeemed in the near term, the investment is classified as Level 2. Accordingly, the inputs used or methodology used for valuing or classifying investments for financial reporting purposes are not necessarily an indication of the risks associated with those investments or a reflection of the liquidity of each fund's underlying assets or liabilities. Because of the inherent uncertainties of valuation, these estimated fair values may differ significantly from values that would have been used had a ready market existed, and the differences could be material.

The College utilizes various investment strategies in its hedge funds and private equity investments. Hedge funds of \$251,658 noted in the following table are comprised of the following strategies: 23% multi-strategy, 45% long/short, 22% portable alpha, 7% global macro and 3% commodities at June 30, 2013. Private equity strategies of \$101,556 include 28% buyout, 18% diversified, 16% venture capital, 22% distressed and 16% energy at June 30, 2013.

Hedge funds of \$218,529 noted in the following table are comprised of the following strategies: 31% multi-strategy, 34% long/short, 24% portable alpha, 8% global macro and 3% commodities at June 30, 2012. Private equity strategies of \$135,203 include 27% buyout, 16% diversified, 25% venture capital, 21% distressed and 11% energy at June 30, 2012.

COLLEGE OF THE HOLY CROSS

(In thousands)

Commitments

Private equity and real asset investments are generally made through limited partnerships. Under the terms of these agreements, the College is obligated to remit additional funding periodically as capital or liquidity calls are exercised by the manager. These partnerships have a limited existence, generally between ten and fifteen years, and provide for annual one year extensions for the purpose of disposing portfolio positions and returning capital to the investors. However, depending on market conditions, the inability to execute the fund's strategy, and other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. As a result, the timing and amount of future capital or liquidity calls expected to be exercised in any particular future year is uncertain. The aggregate amount of unfunded commitments associated with private equity and real asset investments as of June 30, 2013 was \$26,058 and \$44,003, respectively.

Liquidity

Hedge fund and certain global equity and fixed income investments are redeemable with the funds or limited partnerships at NAV under the terms of the subscription agreement and/or partnership agreements. Investments with daily liquidity generally do not require any notice prior to withdrawal. Investments with monthly, quarterly or annual redemption frequency typically require notice periods ranging from 30 to 180 days. The long-term investments' fair values are broken out below by their redemption frequency as of June 30, 2013.

	<u>Daily</u>	<u>Monthly</u>	<u>Quarterly</u>	<u>Annual</u>	<u>Illiquid</u>	<u>Total</u>
Cash equivalents	\$ 36,792	—	—	—	—	36,792
Fixed income	—	22,502	—	—	—	22,502
Global equities	61,639	95,958	—	—	—	157,597
Hedge funds	—	—	94,669	48,853	108,136	251,658
Private equities	—	—	—	—	101,556	101,556
Real assets	19,743	6,790	—	—	37,155	63,688
Split-interest agreements	—	—	—	—	7,816	7,816
Total	<u>\$ 118,174</u>	<u>125,250</u>	<u>94,669</u>	<u>48,853</u>	<u>254,663</u>	<u>641,609</u>

Investments with a redemption frequency of illiquid includes lock ups with definite expiration dates, restricted shares, side pockets, gates or funds in liquidation which have suspended normal liquidity terms as well as private equity and real assets funds where the College has no liquidity terms until the investments are sold by the fund manager. The College is in the process of liquidating \$8,565 of investments at June 30, 2013 for which it has not received cash. Investments associated with split-interest agreements have been categorized as illiquid because they are not available to support operations. Investments with redemption lock ups totaling \$11,032 and \$21,918 are expected to expire in December 2013 and June 2015, respectively. Short term investments have daily liquidity and do not require any notice prior to withdrawal.

(5) Endowment

The College's endowment consists of approximately 800 individual funds established for a variety of purposes including both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowment. Net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowment, are classified and reported based on the existence or absence of donor-imposed restrictions.

Relevant Law

The Massachusetts Uniform Prudent Management of Institutional Funds Act (UPMIFA) permits the Board of Trustees to exercise its discretion in determining the appropriate level of expenditure from a donor-restricted endowment fund in accordance with a set of guidelines about what constitutes prudent spending. Under UPMIFA, the Board is permitted to determine and continue a prudent payout amount, even if the market value of the fund is below historic dollar value. UPMIFA permits the College to appropriate for expenditure or accumulate so much of an endowment fund as the College determines to be prudent for the uses, benefits, purposes and duration for which the endowment fund is established. Seven criteria are to be used to guide the College in its yearly expenditure decisions: 1) duration and preservation of the endowment fund; 2) the purposes of the College and the endowment fund; 3) general economic conditions; 4) effect of inflation or deflation; 5) the expected total return from income and the appreciation of investments; 6) other resources of the College; and, 7) the investment policy of the College.

Although UPMIFA offers short-term spending flexibility, the explicit consideration of the preservation of funds among factors for prudent spending suggests that a donor-restricted endowment fund is still perpetual in nature. The accounting standards define permanently restricted funds as those that must be held in perpetuity even though the historic-dollar-value may be appropriated on a temporary basis. In accordance with appropriate accounting standards, the College classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets, until appropriated for spending by the Board of Trustees.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below their original contributed value. Deficiencies of this nature are reported in unrestricted net assets. These deficiencies generally are the result of unfavorable market fluctuations that occurred after the investment of new permanently restricted contributions. Subsequent gains that restore the fair value of the assets of the endowment fund to the original contributed value are classified as an increase in unrestricted net assets. There were no deficiencies of this nature as of June 30, 2013 and 2012.

Return Objectives and Risk Parameters

The College has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the College must hold in perpetuity or for a donor-specified period as well as board-designated funds. The primary investment objective of the endowment fund is to maintain and grow the fund's real value by generating average annual real returns that meet or exceed the spending rate, after inflation, management fees and administrative costs. Consistent with this goal, the Board of Trustees and the Investment Committee, a standing Committee of the Board of Trustees, intend that the endowment fund be managed with an intention to maximize total returns consistent with prudent levels of risk and to reduce portfolio risk through asset allocation and diversification.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the College relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Investment Committee is responsible for establishing an asset allocation policy. The asset allocation policy is designed to attempt to achieve diversity among capital markets and within capital markets, by investment discipline and management style. The Committee designs a policy portfolio in light of the endowment's needs for liquidity, preservation of purchasing power and risk tolerances. There is no limitation on the types of investments in which the endowment fund may be invested, and it is intended that the Board of Trustees and the Committee have the broadest flexibility as to the selection of investments for the endowment fund.

The College targets a diversified asset allocation that places emphasis on investments in global equities, fixed income, real assets, private equity and hedge funds strategies to achieve its long-term return objectives within prudent risk constraints. The Investment Committee reviews the policy portfolio asset allocation, exposures and risk profile on an ongoing basis.

Spending Policy and How the Investment Objectives Relate to Spending Policy

The College's spending policy is 4.5% of the endowment's fair value applied to a three year moving average with a one year lag. The amount appropriated for operations is \$22,455 and \$21,246 for the years ending June 30, 2013 and 2012, respectively.

In establishing these policies, the College considers the expected return on its endowment and its programming needs. Accordingly, the College expects the current spending policy to allow its endowment to maintain its purchasing power and to provide a predictable and stable source of revenue to the annual operating budget. Additional real growth will be provided through new gifts, any excess investment return or additions designated by the Board of Trustees.

(6) Land, Buildings, and Equipment

The following is a summary of the College's property and equipment as of June 30:

	Estimated lives		2013	2012
			<u> </u>	<u> </u>
Land	—	\$	3,779	3,739
Land improvements	20 – 30		41,077	40,560
Buildings	5 – 55		306,054	301,478
Equipment and furniture	5 – 20		54,266	52,224
Construction in progress	—		6,823	3,902
Artwork	—		<u>853</u>	<u>834</u>
			412,852	402,737
Less accumulated depreciation			<u>(207,024)</u>	<u>(194,554)</u>
		\$	<u><u>205,828</u></u>	<u><u>208,183</u></u>

(7) Retirement Plans

The College's contributory retirement plan covers exempt employees. Participating employees contribute a minimum of 2% to a maximum of 5% of their base salary. The College makes a matching contribution equal to 10% of compensation up to the taxable wage base and 12% of compensation in excess of the taxable wage base. The College contributed \$4,574 and \$4,234, respectively, for the years ended June 30, 2013 and 2012, respectively.

The College's noncontributory defined benefit retirement plan covers nonexempt employees. The College recognizes the funded status, the difference between the fair value of the plan assets and the projected benefit obligation, as an asset or liability in its balance sheet and recognizes the change in that funded status in the year in which the change occurred through changes in nonoperating unrestricted net assets.

The benefit obligation is determined by using a cash flow matching methodology that determines a single rate based on discounted projected cash flows for the plan. Each year the projected cash flow is discounted at a spot rate that is appropriate for that maturity; the discount rate is the single equivalent rate that produces the same discounted present value.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

The following table sets forth the defined benefit pension plan's obligations, fair value of plan assets and funded status for the years ended June 30:

	<u>2013</u>	<u>2012</u>
Change in benefit obligation:		
Benefit obligation at beginning of year	\$ 54,612	44,067
Service cost	2,050	1,582
Interest cost	2,216	2,412
Benefits paid	(1,744)	(1,678)
Actuarial (gain) loss	(9,639)	8,229
Benefit obligation at end of year	<u>47,495</u>	<u>54,612</u>
Change in plan assets:		
Fair value of plan assets at beginning of year	44,404	43,364
Actual return on plan assets	5,942	548
Employer contribution	2,170	2,170
Benefits paid	(1,744)	(1,678)
Fair value of plan assets at end of year	<u>50,772</u>	<u>44,404</u>
Funded status - net asset (obligation) recognized in the balance sheets	\$ <u>3,277</u>	<u>(10,208)</u>
Weighted average assumptions used to determine benefit obligations at June 30:		
Discount rate	5.08%	4.09%
Rate of compensation increase	3.50	4.00
Weighted average assumptions used to determine net periodic benefit cost for year ending June 30:		
Discount rate	4.09	5.55
Expected long-term rate of return on plan assets	7.00	7.00
Rate of compensation increase	4.00	4.00

The accumulated benefit obligation was \$44,027 at June 30, 2013 and \$49,749 at June 30, 2012. The benefits expected to be paid after June 30, 2013 are as follows; \$2,104 in 2014, \$2,219 in 2015, \$2,344 in 2016, \$2,453 in 2017, \$2,555 in 2018 and aggregate benefits for years 2019 through 2023 are expected to be \$14,679. The College plans to make a nonmandatory employer contribution of \$2,170 for fiscal year 2014. The measurement date used to determine pension assets and benefit obligations was June 30, 2013.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

The following table sets forth the components of net periodic benefit cost and the nonoperating charge (credit) reported in the statements of activities for the years ended June 30:

	<u>2013</u>	<u>2012</u>
Components of net periodic benefit cost:		
Service cost – benefits earned	\$ 2,050	1,582
Interest cost on projected benefit obligation	2,216	2,412
Expected return on plan assets	(3,103)	(3,009)
Amortization of prior service cost	449	449
Recognized actuarial loss	839	124
	<u>2,451</u>	<u>1,558</u>
Changes recognized in nonoperating:		
Net (gain) loss arising during the year	(12,478)	10,690
Amortization of prior service cost	(449)	(449)
Recognized actuarial loss	(839)	(124)
	<u>(13,766)</u>	<u>10,117</u>
Total recognized as nonoperating	<u>(13,766)</u>	<u>10,117</u>
Total recognized in the statements of activities	\$ <u><u>(11,315)</u></u>	<u><u>11,675</u></u>

Amounts not yet reflected in net periodic benefit cost and included in the balance sheets are as follows:

	<u>2013</u>	<u>2012</u>
Accumulated net loss	\$ (2,982)	(16,299)
Prior service costs	(950)	(1,399)
	<u>(3,932)</u>	<u>(17,698)</u>
Accumulated contributions in excess of net periodic benefit cost	<u>7,209</u>	<u>7,490</u>
Net asset (obligation) recognized in the balance sheets	\$ <u><u>3,277</u></u>	<u><u>(10,208)</u></u>

The estimated amount that will be amortized from unrestricted net assets into net periodic benefit cost in 2014 is unrecognized prior service cost of \$449.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

The retirement plan's investment policy includes the following asset allocation guidelines:

Cash and fixed income	20 – 45%
Domestic equities	7.5 – 35%
International equities	5 – 25%
Hedge funds	5 – 20%
Real assets	5 – 15%
Multi-asset	5 – 20%

The investment strategy of the noncontributory retirement plan is to allocate assets among investment classes that will provide for stability and growth of plan assets in varying market environments. To that end, the plan has adopted policies that require each asset class to be diversified and that multiple managers with differing styles of management are employed. On a quarterly basis the plan reviews progress toward achieving its and individual managers' performance objectives. The fair value of the College's defined benefit pension plan assets by asset class are as follows at June 30:

	2013		
	Level 1	Level 2	Total
Cash and fixed income	\$ 14,006	—	14,006
Domestic equities	10,885	—	10,885
International equities	—	10,052	10,052
Hedge funds	—	5,840	5,840
Real assets	—	5,327	5,327
Multi-asset	—	4,662	4,662
	<u>\$ 24,891</u>	<u>25,881</u>	<u>50,772</u>

	2012		
	Level 1	Level 2	Total
Cash and fixed income	\$ 13,066	45	13,111
Domestic equities	8,953	—	8,953
International equities	—	7,930	7,930
Hedge funds	—	5,201	5,201
Real assets	—	4,838	4,838
Multi-asset	—	4,371	4,371
	<u>\$ 22,019</u>	<u>22,385</u>	<u>44,404</u>

The investments classified as Level 2 have daily, monthly or quarterly liquidity with one to thirty days notice requirements.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

(8) Long-Term Debt

Long-term debt consists of the following at June 30:

	<u>2013</u>	<u>2012</u>
Massachusetts Development Finance Agency Revenue Bonds:		
5.25%, 2002 Issue maturing in 2032	\$ 26,175	26,175
4% – 5%, 2007 Issue, Series B maturing serially through 2023	22,800	24,370
Floating Rate Revenue Bonds, 2008 Issue, Series A maturing serially through 2037	41,075	42,010
4% – 5%, 2008 Issue, Series B maturing serially through 2026	<u>55,320</u>	<u>58,280</u>
	145,370	150,835
Unamortized premium	<u>5,689</u>	<u>6,080</u>
	<u>\$ 151,059</u>	<u>156,915</u>

Maturities of bonds for the fiscal years after June 30, 2013 are as follows:

2014	\$ 5,690
2015	6,620
2016	6,485
2017	6,230
2018	6,520
Thereafter	113,825

Interest expense charged to operations was \$6,844 and \$7,070 in 2013 and 2012, respectively.

The Massachusetts Development Finance Agency Revenue Bonds are tax-exempt issues and are general obligations of the College. The floating or variable rate for the 2008 Series A Issue is determined on a daily basis by the Remarketing Agent for each rate period to be the lowest rate which in its judgment would permit the sale of the Series 2008A Bonds. In the event that the variable rate for the immediately preceding day was not determined by the Remarketing Agent, or in the event that the variable rate determined by the Remarketing Agent shall be held to be invalid or unenforceable by a court of law, then the interest rate for such day shall be equal the SIFMA Index made available for the week preceding the date of determination, or if such index is no longer available, or no such index was so made available for the week preceding the date of determination, 75% of the interest rate on 30-day high grade unsecured commercial paper notes sold through dealers by major corporations as reported in The Wall Street Journal. The interest rate on the Series 2008A Bonds may be converted to a fixed rate at the election of the College and upon the satisfaction of certain requirements. The average interest rate was .13% and .15% in 2013 and 2012, respectively.

COLLEGE OF THE HOLY CROSS

Notes to Financial Statements

June 30, 2013 and 2012

(In thousands)

In the event that the College receives notice of any optional tender on its variable-rate bonds, or if the bonds become subject to mandatory tender, the purchase price of the bonds will be paid from the remarketing of such bonds. However, if the remarketing proceeds are insufficient, the College will have a general obligation to purchase the bonds tendered. The College maintains a direct-pay letter of credit with a commercial bank to provide alternative liquidity to support the repurchase of tendered variable rate bonds in the event that the bonds are unable to be remarketed. Financing obtained through a letter of credit facility to fund the repurchase of the bonds would bear interest rates different from those associated with the original bond issues. The credit facility in effect at June 30, 2013 expires in December 2015.

The College has one interest rate swap agreement related to the Series 2008A Bonds with a current notional amount of \$40,875 that reduces at approximately the same rate as the outstanding principal amount of the Series 2008A Bonds. The swap provides for the College to pay a fixed rate of 3.881% in exchange for the financial institution paying a variable rate equal to 68% of 1-month USD-LIBOR on the notional amount. Neither party has an obligation to post collateral with respect to the swap. However, in the event the College's credit ratings were downgraded below a specified level, the counterparty could elect to terminate the swap which could require a termination payment to the counterparty. The mark-to-market liability associated with the swap was \$8,356 and \$12,293 as of June 30, 2013 and 2012, respectively. To the extent the College holds a swap through its expiration date, the swap's fair value will reach zero. Because the swap fair value is based predominantly on observable inputs that are corroborated by market data, it is categorized as Level 2 for purposes of valuation disclosure.

The College established an unsecured line of credit in the amount of \$15,000 with a commercial bank primarily for working capital purposes. The line of credit expires in May 2014 and may be renewed. The line of credit was not utilized during the years ended June 30, 2013 or 2012 and has no outstanding balance as of June 30, 2013 or 2012.

The College determined that the estimated fair value of its total indebtedness was \$145,283 and \$159,528 as of June 30, 2013 and 2012, respectively. The fair value of long-term debt is based on significant observable inputs and is categorized as Level 2 for purposes of valuation disclosure. The College further determined that the differences between the carrying values and estimated fair values of its other financial assets and liabilities at June 30, 2013 and 2012 were not significant.

(10) Related-Parties

Members of the College's Board of Trustees and senior management may, from time to time, be associated, either directly or indirectly, with companies doing business with the College. The College's conflict of interest policy requires, among other things, that no member of the Board of Trustees or its committees can participate in any decision in which he or she (or an immediate family member) has a material financial interest. For members of the Board of Trustees and senior management, the College requires an annual disclosure of significant financial interests in, or employment or consulting relationships with, entities doing business with the College. When such relationships exist, measures are taken to address the actual or perceived conflict to protect the best interests of the College and ensure compliance with relevant conflict of interest laws or policy.

The College has investments in funds where members of the Board of Trustees serve as a manager, director or partner. These investments include limited partnerships that provide investment management services for a portion of the College's hedge fund portfolio and several funds for cash and cash equivalents. These investments were made in compliance with the College's conflict of interest policy. As of June 30, 2013, the College held \$157,043 in these funds, which are included in the College's long-term investment portfolio and its cash and cash equivalents. The College has no commitment to contribute or invest any additional funds to these investments. The College took measures to mitigate any actual or perceived conflict, including requiring that these transactions be conducted at arm's length, for good and sufficient consideration, based on terms that are fair and reasonable to and in the best interest of the College, and in accordance with applicable conflict of interest laws.

(11) Natural Classification of Expenses

Operating expenses presented by natural classification are as follows for the fiscal years ended June 30:

	<u>2013</u>	<u>2012</u>
Salaries	\$ 68,137	64,988
Fringe benefits	26,407	23,886
Depreciation	13,340	12,750
Interest	6,844	7,070
Utilities	4,169	4,415
Other operating	36,644	35,362
	<u>\$ 155,541</u>	<u>148,471</u>

(12) Subsequent Events

For purposes of determining the effects of subsequent events on these financial statements, management has evaluated events subsequent to June 30, 2013 and through September 23, 2013 the date on which the financial statements were issued.
