If the answer to any of the above questions is YES or if you have had a positive skin test in the past, please call Health Services @ 508-793-2276. If the answer to any of the above questions is YES The Massachusetts Department of Public Health strongly recommends that you have a tuberculin skin test to check for latent tuberculosis infection. If the answer to all of the above questions is NO, a tuberculin skin test should not be done.

Signature _____

If you have had a positive skin test for tuberculosis in the past, inform your health care provider.
You will not need another test.
