

Holy Cross Physicians Association

Edward L. Bove MD '68

Compiled by Charles J Coté, MD '68

Dr. Bove was born in New York, New York and attended Chaminade High School in Mineola, NY. He attended Holy Cross from 1964-1968 where he was Treasurer of the Knights of Columbus, member of the Junior Prom Committee, Big Brother Committee, Vice President of Alpha Epsilon Delta the International Premedical Honor Society, and member of the Yacht Club. He graduated with a Bachelor of Arts Degree and went on to Albany Medical School, Albany New York where he received his Doctor of Medicine Degree and was appointed to Alpha Omega Alpha.

Dr Bove is best known as a world authority and pioneer in the surgical repair of congenital hypoplastic left heart disease, a formerly universally fatal anomaly, and has performed over 12,000 surgical procedures! He has also given over 300 invited national and international lectures. Dr. Coté recalls one of their first interactions at Holy Cross in a Biology Lab where he commented that he wanted to be a pediatric cardiac surgeon. Obviously, from his freshman year at Holy Cross he knew what he wanted to achieve and Holy Cross provided the foundation upon which he built his career. Over the years he has had the support of his wife Linda and two lovely

children (Susan and Christopher). His drive and love of surgery drove him to the top of the top. He is truly deserving of this Holy Cross Physicians Association Lifetime Achievement Award.

Medical Training:

1972-73 Surgical Intern University of Michigan Hospitals
