

# Physics Department Alumni Panel, 2023

Friday April 21<sup>st</sup>, 3 – 4 PM, Smith Labs 154

---

## Jack Belanger, Class of 2022

Since graduating from Holy Cross, Jack has worked as a teacher at Bishop Feehan High School. At Bishop Feehan he currently teaches physics and algebra.

## Jake Golde, Class of 2010

Jake is currently a Senior Scientist at Vox Biomedical where he develops sensor technology to analyzing volatile organic compounds and small molecules in biological matrices. Prior to this he worked in R&D at N2 Biomedical, and prior to that had two electrical power engineering positions at different companies. In 2017 he graduated with a M.S. in applied physics from UMass Boston.

## Michaela Carroll, Class of 2016

After Holy Cross, Michaela researched racial disparities in kidney transplantation. She then received her MPH from Brown University and worked with the RI Department of Health during the pandemic. Michaela is currently a science writer with Brown's Center for Gerontology and a policy analyst with RI Kids Count.

## Ted O'Neill, Class of 2016

Ted has worked as an acoustical consultant at Cavanaugh Tocci since graduating Holy Cross. He specializes in HVAC system noise controls, sound and vibration isolation, and architectural acoustics. While working, Ted attended WPI for a Masters in Mechanical Engineering, and is currently pursuing a professional engineer license (PE).
