Thinking, Fast and Slow

INTRODUCTION

• Origins
• Where We Are Now
• What Comes Next

PART I. TWO SYSTEMS

1. The Characters Of The Story
   • 17 x24
   • Two Systems
   • Plot Synopsis
   • Conflict
   • Illusions
   • Useful Fictions
   • Speaking of System 1 and System 2

2. Attention And Effort
   • Mental Effort
   • Speaking of Attention and Effort

3. The Lazy Controller
   • The Busy and Depleted System 2
   • The Lazy System 2
   • Intelligence, Control, Rationality
   • Speaking of Control

4. The Associative Machine
   • The Marvels of Priming
   • Primes That Guide Us
   • Speaking of Priming

5. Cognitive Ease
   • Illusions of Remembering
   • Illusions of Truth
   • How to Write a Persuasive Message
   • Strain and Effort
   • The Pleasure of Cognitive Ease
   • Ease, Mood, and Intuition
   • Speaking of Cognitive Ease

6. Norms, Surprises, And Causes
   • Assessing Normality
   • Seeing Causes and Intentions
   • Speaking of Norms and Causes

7. A Machine For Jumping To Conclusions
   • Neglect of Ambiguity and Suppression of Doubt
   • A Bias to Believe and Confirm
   • Exaggerated Emotional Coherence (Halo Effect)
   • What You See Is All There Is (Wysiati)
   • Speaking of Jumping to Conclusions

8. How Judgments Happen
   • Basic Assessments
   • Sets and Prototypes
   • Intensity Matching
   • The Mental Shotgun
   • Speaking of Judgment

9. Answering An Easier Question
   • Substituting Questions

10. Answering an Easier Question
    • The 3-D Heuristic
    • The Mood Heuristic for Happiness
    • The Affect Heuristic
    • Speaking of Substitution and Heuristics

PART II: HEURISTICS AND BIASES

10. The Law Of Small Numbers
    • The Law of Small Numbers
    • A Bias of Confidence Over Doubt
    • Cause and Chance
    • Speaking of the Law of Small Numbers

11. Anchors
    • Anchoring as Adjustment
    • Anchoring as Priming Effect
    • The Anchoring Index
    • Uses and Abuses of Anchors
    • Anchoring and the Two Systems
    • Speaking of Anchors

12. The Science of Availability
    • The Psychology of Availability
    • Speaking of Availability

13. Availability, Emotion, and Risk
    • Availability and Affect
    • The Public and the Experts
    • Speaking of Availability Cascades

14. Tom W’s Specialty
    • Predicting by Representativeness
    • The Sins of Representativeness
    • How to Discipline Intuition
    • Speaking of Representativeness

15. Linda: Less Is More
    • Less is More, Sometimes Even in Joint Evaluation
    • Speaking of Less is More

16. Causes Trump Statistics
    • Causal Stereotypes
    • Causal Situations
    • Can Psychology be Taught?
    • Speaking of Causes and Statistics

17. Regression To The Mean
    • Talent and Luck
    • Understanding Regression
    • Speaking of Regression to Mediocrity

18. Taming Intuitive Predictions
    • Nonregressive Intuitions
    • A Correction for Intuitive Predictions
    • In Defense of Extreme Predictions?
    • A Two-Systems View of Regression
    • Speaking of Intuitive Predictions

PART III: OVERCONFIDENCE

19. The Illusion Of Understanding
    • The Social Costs of Hindsight
    • Recipes for Success
    • Speaking of Hindsight
PART IV: CHOICES

20. The Illusion Of Validity
   - The Illusion Of Validity
   - The Illusion Of Stock-Picking Skill
   - What Support the Illusions of Skill and Validity?
   - It is not the Expert’s Faulty – The World is Difficult
   - Speaking of Illusory Skill

21. Intuitions vs. Formulas
   - The Hostility to Algorithms
   - Learning from Meehl
   - Do it Yourself
   - Speaking of Judges vs. Formulas

22. Expert Intuition: When Can We Trust It?
   - Marvels and Flaws
   - Intuition as Recognition
   - Acquiring Skill
   - The Environment of Skill
   - Feedback and Practice
   - Evaluating Validity
   - Speaking of Expert Intuition

23. The Outside View
   - Drawn to the Inside View
   - The Planning Fallacy
   - Mitigating the Planning Fallacy
   - Decisions and Errors
   - Failing a Test
   - Speaking of the Outside View

24. The Engine Of Capitalism
   - Optimists
   - Entrepreneurial Delusions
   - Competition Neglect
   - Overconfidence
   - The Engine of Capitalism
   - The Premortem: A Partial Remedy
   - Speaking of Optimism

PART V: TWO SELVES

25. Bernoulli’s Errors
   - Bernoulli’s Errors
   - Speaking of Bernoulli’s Errors

26. Prospect Theory
   - Loss Aversion
   - Blind Spots of Prospect Theory
   - Speaking of Prospect Theory

27. The Endowment Effect
   - The Endowment Effect
   - Thinking Like a Trader
   - Speaking of the Endowment Effect

28. Bad Events
   - Goals Are Reference Points
   - Defending the Status Quo
   - Loss Aversion in the Law
   - Speaking of Losses

29. The Fourfold Pattern
   - Changing Chances
   - Allais’s Paradox
   - Decision Weights
   - The Fourfold Pattern
   - Gambling in the Shadow of the Law
   - Speaking of the Fourfold Pattern

30. Rare Events
   - Overestimation and Overweighting
   - Vivid Outcomes
   - Vivid Probabilities
   - Decisions from Global Impressions
   - Speaking of Rare Events

31. Risk Policies
   - Broad or Narrow?
   - Samuelson’s Problem
   - Risk Policies
   - Speaking of Risk Policies

32. Keeping Score
   - Mental Accounts
   - Regret
   - Responsibility
   - Speaking of Keeping Score

33. Reversals
   - Challenging Economics
   - Categories
   - Unjust Reversals
   - Speaking of Reversals

34. Frames and Reality
   - Emotional Framing
   - Empty Intuitions
   - Good Frames
   - Speaking of Frames and Reality

35. Two Selves
   - Experience and Memory
   - Which Self Should Count?
   - Biology vs. Rationality
   - Speaking of Two Selves

36. Life as a Story
   - Amnesic Vacations
   - Speaking of Life as a Story

37. Experienced Well-Being
   - Experienced Well-Being
   - Speaking of Experienced Well-Being

38. Thinking About Life
   - The Focusing Illusion
   - Time and Time Again
   - Speaking of Thinking About Life

CONCLUSIONS
   - Two Selves
   - Econs and Humans
   - Two Systems
